

OUTDOOR LANDSCAPE LIGHTING

Custom Sprinklers, Inc.

IRRIGATION AND OUTDOOR LIGHTING

HONEST. QUALITY. SERVICE.

WHY LANDSCAPE LIGHTING?

We all know that landscape lighting brings added beauty and value to your home. But landscape lighting offers far more than just beauty for your home.

SECURITY

You don't have to trade beauty for safety with LED lighting. On every project we evaluate your property and offer recommendations to enhance security in combination with porch lighting. Outdoor lighting can improve your home's security.

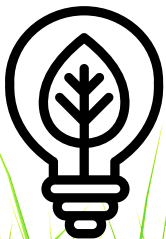

SAFETY

Enhance your home and your landscape by accenting existing features and enhancing your landscape all while providing safety for your family and guests by highlighting elevation changes, steps and walkways.

EXTEND YOUR NIGHT

Lighting highlights your home and landscape well into the night. In Michigan, we want to take advantage of our warm summer evenings and our brisk fall nights. Landscape lighting allows you to entertain and enjoy the outdoors well into the night.

ENERGY EFFICIENCY

LED lighting utilizes between 10% and 20% of the wattage required for standard incandescent fixtures. This not only reduces energy consumption, but also increases the life of the fixture and bulb.

HONEST. QUALITY. SERVICE.

LIGHTING CONCEPTS

TECHNIQUES

We utilize a variety of lighting techniques to create an inviting, yet private atmosphere that meets your needs. We utilize **uplighting** to highlight plants and hardscape, **wallwashing** to add depth and texture, **downlighting** and **moonlighting** to offer movement and perspective and **pathlighting** to highlight landscape, broaden your canvas and provide safe paths for your friends and family.

We also offer **specialty lighting** to accent your landscape, pool and hardscape. We can provide undermount lighting for your deck or hardscape walls, pendant lights in trees or under pergolas and more. We identify the features of your property to highlight and determine the best technique to create a unique effect including lighting fountains and waterfalls, flagpoles and more.

ADDITIONAL FEATURES

LED technology has transformed the outdoor lighting industry. LED technology **decreases voltage drop** and **increases fixture capacity, increases bulb life, reduces maintenance** and **improves energy efficiency**. Today's controllers offer a variety of custom controls from a simple plug-in timer, to a photocell (for dusk-to-dawn operation), to astronomical timing, calendar and event controls and even WiFi and smartphone app controls.

HONEST. QUALITY. SERVICE.

CUSTOM SOLUTIONS

We offer solutions for **every project and every budget**. On all projects we use only the **highest-quality products** and brands to design a unique space based on your wants, needs, and budget.

We don't offer standard Tier packages, because every lighting system is designed based on your property and your needs. We design your system with high-quality, reliable fixtures that utilize today's best technology. Even current LED lighting varies from manufacturer to manufacturer. The primary difference is whether or not the LED drives are "sealed" or "integrated" into the fixture.

Integrated and sealed fixtures offer the best warranty (**minimum of 10 years**). With integrated LED fixtures you can expect **approximately 50,000 hours** of use (over 12 years at 10 hours per day. Kichler and FX both warrant their integrated products that if a fixture fails due to defect, it will be replaced by the supplier free of charge (see warranty section for further).

Both vendors offer high-quality products that appeal to different clients. If you are looking for the ability to change your light color, turn on and off different light zones and/or dim fixtures, one by one, then FX is the line for you. If you are looking for high-quality, designer fixtures with the most up-to-date technology and warranty then both Kichler and FX fit your needs.

OUR COMMITTMENT

WARRANTIES

Custom Sprinklers, Inc. stands behind our workmanship and the products we install. We select only the best materials, technology and vendors to provide outdoor lighting for your home. Not only does LED landscape lighting transform your home, it does so with reduced energy costs, improved reliability and security. If a fixture does fail due to malfunction within the warranty period we will handle ordering the new fixture and replacing it solely at our labor cost. We will cover any defect within the first three (3) years.

Kichler - Gen 1.5 - 10 years

Kichler - VLO - 15 years

FX Luminaire (FX) - LED products are all 10 years

SATISFACTION GUARANTEED

Our goal is to enhance the beauty of your home and property with a combination of lighting techniques without drawing attention to the fixtures. Each project is custom designed for your space and your needs. From drop-in fixtures to fully integrated ones, we will work with you to provide a high quality installation to serve you for years to come.

HONEST. QUALITY. SERVICE.

WHY CHOOSE US?

CUSTOM ASSESSMENT

We will schedule a time to meet with you at your home and review your property. We want to focus on **what you want** to highlight and what is important to you. Your focus may be on **entertaining**, highlighting a specific landscape feature, or improving **safety** and **security**.

We will walk your site, discuss your ideas and develop a proposal based on your budget for your project. During this consultation we can discuss phased installations to make sure that we plan accordingly at the beginning of the project. Our installations offer maximum **flexibility** to adapt to your needs. We can start with a small front yard system or integrate your whole property including your deck, pool, fountain or pond.

We won't oversell you. We won't turn your home into a runway. We will always provide our **honest** and **open** recommendations based on our experience and expertise.

HONEST. QUALITY. SERVICE.

We treat you and your property as if it were our own. There is nothing more important than maintaining the reputation of our company and those reputations are built on relationships. Your project is more than a project, it's a relationship. We have built our business off of those relationships and look forward continuing that same experience with you.

HONEST. QUALITY. SERVICE.

ADDITIONAL FEATURES

We keep up with ever-changing technology to offer you the most up-to-date and advanced systems for your project.

SMART HOME CONTROLS

Today's lighting control systems can integrate with your smart home devices and/or your smartphone. Whether using proprietary controls provided by an outdoor lighting manufacturer, or integrating it into your current systems (Leviton, Lutron, etc.)

ADVANCED CONTROLS

Lighting control options vary from simple on-off controls, to photovoltaic (dusk to dawn controls), digital times and even WiFi inteconnected scheduling and programming. This includes smartphone programming and controls to be adjusted while on vacation or in your own backyard.

ZONING, DIMMING AND COLOR

FX Luminaire is an industry-leading landscape and architectural lighting solutions. FX focuses on providing high-quality, technologically advanced products that leverage flexibility and adjustability. With zoning, dimming, and color you can control individual lights, dim specific zones and add colorful elements during different seasons.

RELIABILITY

Our lighting products cannot be found at big box stores or on the internet. Those products have a market, but if you are looking for high-quality materials, state-of-the-art technology, reliability, consistency and durability, professional lighting is the only solution.
